NEW HOTLINE INTEGRATION WITH WISE AGENT CRM

Building a Stronger Lead Connection

AMS is happy to announce that we now offer toll free hotline integration with leading Real Estate CRM & Transaction Management platform system, [Wise Agent](#). Wise Agent is a very powerful all-in-one real estate CRM platform combining contact management, lead automation, transaction management, and real estate marketing software. Together, AMS and Wise Agent help REALTORS® become more efficient, giving them the opportunity to save time and make more money.

While the benefits of this partnership are plenty, below are just a few highlights:

- Incoming hotline leads (name/address/caller id/script id and script title) are automatically created/updated into your Wise Agent account.
- A summary of the caller's hotline activity (date/time of call/caller id/script id dialed/messages indicator/duration of the call) is placed directly into the Contact Record for quick reference.
- Easily update your conversation history in the Contact Notes for future follow-up.
- Quickly add hotline leads into your automated follow-up call lists and drip/text campaign sequences.

"Exporting/importing hotlines leads from one system to another wasn't ideal for our clients. Taking this task and automating it just made sense." – Mike Kowalski, AMS President & Founder

"Our integration with AMS will make it easier than ever for agents to work and market seamlessly across platforms, increasing productivity tenfold. - Brandon Wise, CEO, Wise Agent"

Quickly add hard-earned hotline leads into automated follow-up call lists and drip campaign sequences.

"I've been using AMS & Wise Agent for several years now and this integration couldn't make me happier! I'm looking forward to plugging the holes in my follow-up and keeping more leads in my funnel." – Ann Marie C., Re/Max Performance
